

Open Recirculating Cooling System Questionnaire

System Report

Customer:

Factory type:

System type (cooling tower, evaporative condenser):.....

Cooling capacity (Kcal/h or Btu/h or Cooling Tons):

Make up water source:

Make up water treatment: Daily consumption:

Total cooling water volume (m³): Recirculating rate (m³/h):

Operating conditions (hours per day, days per week):

Inlet/Outlet water temperature (°C):

Cooling water blowdown (auto/hand, continuous/discontinuous):

Blowdown rate (m³/h): Sidestream filtration (Yes/No):

Construction materials in contact with cooling water:

Other:
