

**The essence  
of ecological  
*water* treatment...**

# Treat your water like

you would treat **yourself...**

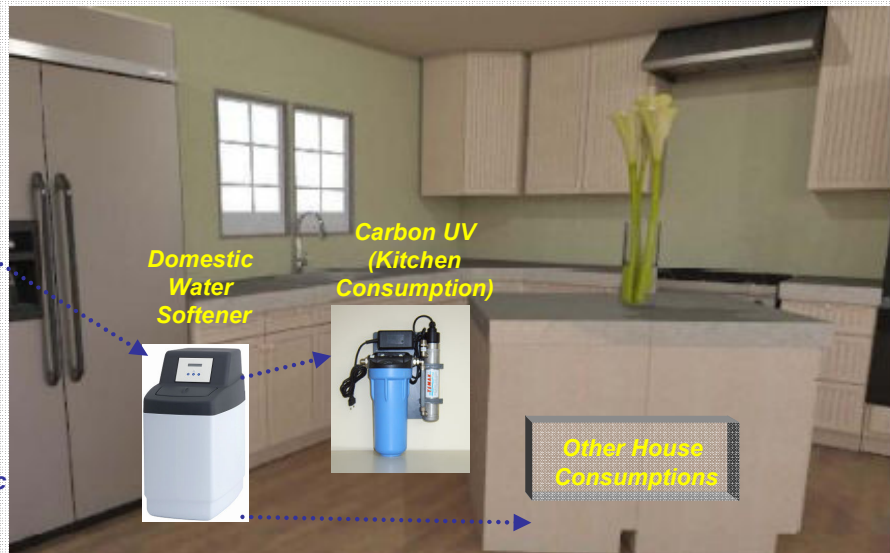

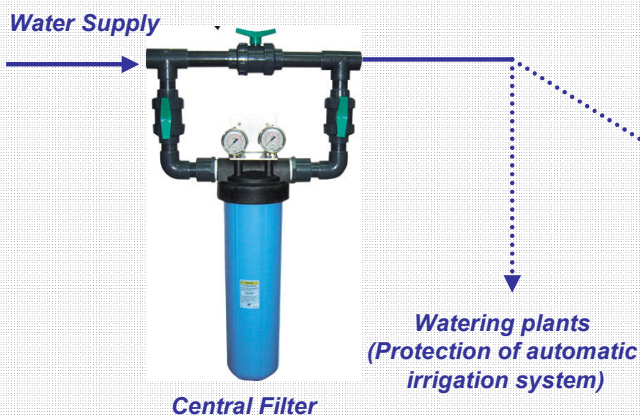

## Hard water, even in your house!

A majority of households struggles with the effects of hard water. But what is hard water? Hard water contains magnesium and calcium that picks up from the rocks on its path from falling as rain until it reaches your tap. And these minerals can cause some serious damage to your plumbing and smaller appliances in the kitchen – not to mention your boiler and washing machine!

## All houses need :

- Central bag or cartridge filter for the feed water of automatic irrigation system
- Central water softener for all the needs of the house
- Carbon – UV for potable water (kitchen)

## ***A healthy, cost-efficient and ecological solution ?***

# ***Domestic water softener by TEMAK of course!***

*Domestic water softener by TEMAK Water Treatment Systems will soften the water on your entire house. This will help you to protect your sanitary installations, electrical appliances and boilers against damages by hard water. They will last longer and stay efficient throughout their entire lifespan – and don't worry about your appliances if you have been using hard water – as the softened water running through will eventually clear all the existing limescale. By reducing your energy consumption in water heating systems appliances, you lower energy cost and cost and CO<sub>2</sub> emissions. The Domestic water softener by TEMAK Water Treatment Systems : a truly ecological product, designed to answer the needs of you and your family!*

## ***Domestic water softener by TEMAK***

*TEMAK Water Treatment Systems is aware of the role it plays in the protection of our environment. We are committed to contribute to a better and cleaner world and therefore ECOLOGICAL considerations play an important role already in the early stages of product development. We aim at using mainly recyclable materials and waste products are reduced to the absolute minimum.*

*TEMAK Water Treatment Systems : the  
environmental choice!*

TECHNICAL INFORMATION		
MODEL	ECO+	
Resin (Liters)	11	26
Operating pressure min/max (bar)	1.4 / 8.3	
Operating temperature min/max (°C)	2/48	
Electrical connection (V/Hz)	230/50 <sup>(1)</sup>	
Maximum power consumption(VA)	21	
Hydraulic connection inlet/outlet	¾" BSP Male	
Control valve type	541N84	
Pressure tank dimensions (in)	9 x 18	10 x 35
<sup>(1)</sup> Supplied with 24V transformer		
PERFORMANCES BRINING OF 125GR/LTR OF RESIN <sup>(2)</sup>		
Nominal exchange capacity (m <sup>3</sup> xof)	56	133
Salt usage per regeneration (kg) <sup>(3)</sup>	1,4	3,3
Rinse water usage per regeneration (Ltr)(@ 3bar) <sup>(3)</sup>	97	185
<sup>(2)</sup> Indicative numbers, performances depending on operating conditions and water quality		
<sup>(3)</sup> Maximum salt/water usage as brining is proportional (minimum of 60%) on Eco+		

ΔΙΑΣΤΑΣΕΙΣ ΚΑΙ ΒΑΦΗ		
MODEL	ECO+	
Width (mm) (Π)	345	
Height (mm) (Υ)	686	1105
Depth (mm) (Β)	573	
Depth, including bypass (mm)	658	
Height inlet/outlet (mm)	514	933
Height inlet/outlet including bypass (mm)	520	939
Weight (kg)	19	36,5
Weight, including bypass (kg)	19,5	37
Maximum salt storage capacity (kg)	50	125
