

Flow Control Equipment

High Performance, Safety and Economy

The selection of the appropriate flow control equipment ensures **economy**, **safe** and **optimal system operation**.

The optimal and safe operation of any flow control equipment (liquid, steam, gas, chemical), through the detailed design and suitable accessories, is important for every sector (industry, shipping industry, hospitals, tourism, Municipalities etc.). The selection of the suitable type of equipment is performed by specialized

staff of TEMAK SA free of charge on behalf of each customer.

TEMAK provides reliable and high quality flow control equipment, scientific support and competitive prices. Hydraulic and industrial products from the largest suppliers that we cooperate with are presented below:

Valves

- Butterfly & Ball
- Analog or On - Off
- Non-return (check valve, swing type etc.)
- Gate - Knife gate
- Spare parts

Pneumatic & Electric Actuators

- Additional equipment (limit switches, position indicator, solenoid valves)
- Spare parts

«TEMAK is your consultant on the flow control equipment selection providing credibility and economy in every case.»

Fresh water generators

- Additional equipment
- Spare parts

Heat Exchangers

- Plate heat exchangers
- Brazed heat exchangers
- Spare parts

SONDEX®

Safety valves

- Open or closed body (according to DIN, ASME & JIS Drilling Standards)
- Apply to any operating conditions
- Spare parts

LESER
The-Safety-Valve.com

Control valves

- 2-way or 3-way
- Pneumatic or Electric
- Analog or On - Off
- Spare parts

CONFLOW s.p.a.
FLOW CONTROL SOLUTIONS

Pressure reducing valves

- Additional equipment
- Spare parts

CONFLOW s.p.a.
FLOW CONTROL SOLUTIONS

Temperature control valves

- Temperature control
- Spare parts

Clorius
CONTROLS

Steam traps & Y Strainers

- Spare parts

DOUGLAS CHERO SpA
dc FORGED VALVES

Control Equipment - Automations

- Steam fittings for boiler etc
- Float switches
- Pressostats

FANTINI COSMI
THE ITALIAN TECHNOLOGY

Benefits of cooperating with **TEMAK**

✓ **We provide**

- Complete and up to date solutions for the needs of our clients
- Availability of materials, parts and spare parts
- Experience and know-how
- Safety on steam equipment and generally on high pressure and high temperature flow control equipment

✓ **We guarantee**

- Max profit to your business through the result/price ratio

✓ **We offer**

- Quality in the solution design and construction materials
- Scientific support including study, drafting, sizing, calculation, testing/adjustment of valves and heat exchangers
- Suggestions for upgrading existing flow control equipment
- Products from European and International Companies with ISO, CE and appropriate certificates

✓ **Our clients:**

- Industry (Refineries, Power Plants, Chemicals, Metals, Food-Drinks, Medicines-Cosmetics, Textiles-Dyes)
- Marine
- Tourism
- Municipalities-Communities
- Public Sector Companies
- Hospitals-Health Clinics
- Large Construction Companies (Contractors, Technical Construction Companies, Design Consultants)

Blastcom.gr

TEMAK offers modern and integrated solutions for hydraulic and industrial products. Reliability and consistency through our long-standing partnership with leading suppliers are the key asset of our product selection and application in industries such as Marine, Industry, Municipalities and Hospitals.
