

CASE STUDY (002-M-E) **Municipality, Mauritius**

Turbidity Filter System 4.000 m³/day

DATE OF IMPLEMENTATION
December 2016

INTRODUCTION
Drinking Water at Mauritius

PROJECT
Manufacture and installation of Turbidity Filters with production capacity 4.000 m³/day for the treatment of river water in a municipality of the island state of Mauritius, to provide drinking water to the citizens.

Since 1980, TEMAK has been at the side of local communities covering their needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece and the high expertise of its specialized staff, TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 650.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK's installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
