

CASE STUDY (004-A-E)

Park, Kuwait

Desalination Plant 3.300 m³/day

DATE OF IMPLEMENTATION

2016

INTRODUCTION

Irrigation of parks and gardens in Kuwait

PROJECT

Supply, transportation, installation and operation of containerized Desalination Plants in Kuwait area, total production 3.300m³/day, for the irrigation of parks and gardens.

Since 1980, TEMAK has been at the side of companies and local communities covering their needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece and the high expertise of its specialized staff, TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 750.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK's installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
