

CASE STUDY (005-U-En) **Labor Camp, Qatar**

Desalination Plant of Brackish Water 500 m³/day

DATE OF IMPLEMENTATION
2016

PROJECT

With an important project for Desalination capacity 500 m³/day, TEMAK inaugurated a new partnership in Qatar. The system covers the needs in drinking water of a labor camp.

Since 1980, TEMAK has been at the side of local communities covering their needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece,

and the high expertise of its specialized staff TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 750.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK's installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
