

CASE STUDY (007-M-E) **Municipality, Greece**

Portable Sea Water Desalination Plant 900 m³/day

DATE OF IMPLEMENTATION
2016

PROJECT

A new Portable Sea Water Desalination Plant of min. output 450 m³/day, using reverse osmosis (R / O), was set in operation in a municipality of an island.

Since 1980, TEMAK has been at the side of local communities covering their needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece and the high expertise of its specialized staff, TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 750.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK's installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
