

**Water
Treatment**

Reverse Osmosis

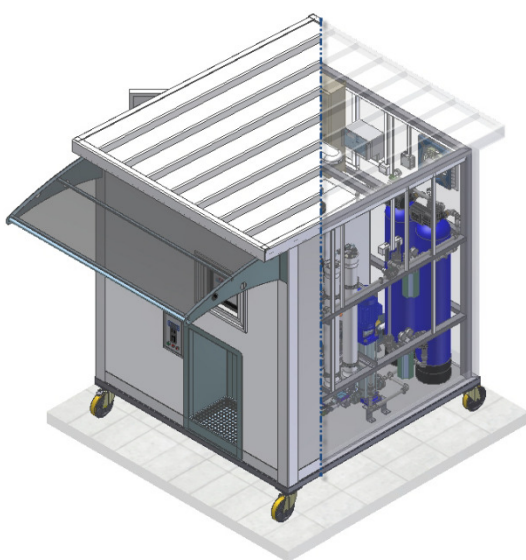

WATER KIOSK

T-WATER KIOSK

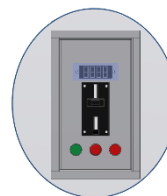

**Automatic water vending machine
with TEMAK reverse osmosis system**

Compact water treatment system with reverse osmosis and integrated vending machine

Design Parameters

- Cities, municipalities or villages
- Schools

**Automatic, coin-
operated vending
machine**

Standard characteristics

- Cartridge filter 10", 50micron
- Inlet solenoid valve
- Raw water tank
- Feed pump
- Automatic turbidity and active carbon filters
- Reverse osmosis TBW21/22L,H
- Rehardening filter
- Stainless steel permeate water tank
- Sterilized device for permeate water with UV
- Cellulose-carbon filter for permeate water
- Automatic, coin-operated, water vending machine
- Stainless steel water intake
- Removable shade
- Heavy duty wheels for easy transportation

Performance

| Model | Max production [m ³ /24h] | Usual Rejection [m ³ /24h] |
|----------|---|--|
| TBW21L/H | 7,2 | 2,4-7,2 |
| TBW22L/H | 13,9 | 4,6-13,9 |

Dimensions / Weight

| Model | Equipment dimensions |
|--------|-------------------------|
| Length | 2,0m |
| Width | 2,0 m |
| Height | 2,5 m |
| Weight | 2,0 tn |
