

CASE STUDY (036-H-E) **Hotel, Greece**

**Brackish water Desalination
System 70 m³/day**

DATE OF IMPLEMENTATION
2018

PROJECT

TEMAK S.A. installed a brackish water desalination system of a capacity of 70 m³ / day for the potable water requirements of a hotel in Kos Island. The system has been delivered in full operation in a very short notice thanks to the TEMAK S.A. well-organised team and know-how. TEMAK S.A. designed, produced, installed and set in operation the system with absolute consistency in order for the hotel to have potable water from the first day of operation.

Since 1980, TEMAK has been at the side of Tourism sector and covering their needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece and the high expertise of its specialized staff, TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 750.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK's installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
