

CASE STUDY (037-I-E) **Cosmetics Industry, Greece**

Containerized brackish water desalination system 65 m³/day

DATE OF IMPLEMENTATION
2018

PROJECT

The water quality demands of cosmetics industry are strict. Such an industry in Evia faced problems with water due to high salinity and hexavalent chromium. The problems were solved by choosing the TEMAK S.A. Desalination System producing 65 m³ / day of <20 µS/ cm.

Since 1980, TEMAK has been at the side of industrial sector covering its needs with reliability and consistency, having a full range of certified water treatment products.

Thanks to the systems manufacture in Greece and the high expertise of its specialized staff, TEMAK is able to offer total water treatment solutions, from study and design to manufacture and installation of required systems.

The 750.000 m³/day of clean potable water or water for general uses, produced daily from TEMAK's installed systems in Greece and 26 abroad countries, constitute the proof of our experience and know-how in water treatment.
